not much is known about hermione's childhood. she was given a basic muggle education, with her schooling and tutors concentrating on encouraging her to be an exceptional witch and wizard. after hogwarts was no longer able to maintain her in its protection, she moved in with her auntie muriel and cousin ginny. muriel and ginny later moved to a farm in england as albusumbledore explains to harry that they had been driven from godric's hollow. after seeing how badly she was treated by her guardians, hermione quickly gained the nickname of "mudblood" and suffered nightmares about sirius black due to her feeling responsible for his death. after failing her o.w.l.s for the first time,umbledore visits her in the shrieking shack. he offers her one further opportunity to raise her scores on the potions exam, and she passes with six points. shortly afterwards she moves in with her godfather and sirius black's parents, the dursleys.

harry potter: the prisoner of azkaban, and half-blood prince originally a person of average height and build, the appearance of a severe, yet quick-thinking, young woman changed to a taller and much more muscular woman. her face was more angular, she had brighter eyes, and her hair was cut shorter. she spoke rarely, but when she did, it was with a form of verbal shorthand. her medical history indicated that she had been born with the strength of six adults, a condition that was expected to decrease over time. harry pretends that ron's invisibility, which is explained in this book, is not what it seems. in reality, harry is able to see ron and hermione when he focuses on them. ron and hermione also have the power to see a person if they focus on them.
